Pediatric Dental

At Health New England, we're committed to keeping even our youngest members smiling - which is why our plans include a Children's Dental Benefit.

Through a special arrangement with Altus Dental Insurance, participating dentists offer a full range of preventive services for all Health New England (HNE) members under age 12.*

Better yet, all of these services are provided free of charge when you use an Altus participating provider. A \$25 deductible per child per calendar year, and balance billing applies to services provided by non-participating providers. Only the preventive services described below are covered. Other services, such as fillings and extractions, are not covered.

CHILDREN'S DENTAL	
<i>This benefit covers all Health New England members under the age of twelve for the following preventive services:</i>	
Initial Oral Examination	once per dentist
Periodic Oral Examination	once every 6 months
X-rays of entire mouth	once every 60 months
Bitewing X-rays	once every 6 months
Single Tooth X-ray	as needed
Routine Cleaning, Scaling and Polishing of Teeth	once every 6 months
Fluoride Treatments	once every 6 months

*For more information about the pediatric dental program contact:
 HNE Sales Department 800-842-4464 or 413-787-4000.*
